

Solidarity with USB Italy and all workers in strike on 10th of November

LAB class oriented trade union from the Basque Country and member of the World Federation of Trade Unions expresses its solidarity with comrades from the USB Italy, and all workers in strike on 10th of November for a better job and life conditions

In the Basque Country we suffered similar situations with the reforms of Spanish PP and PSOE governments and with the cuts applied by the autonomic government from the South Basque Country. That is why we organized 6 general strikes during four years.

Your struggle is all workers in struggle against cuts and workers rights attacks around the world. In this important moment is very necessary a strong workers movements and trade unions to organise the struggle against the anti workers politics.

LAB expresses its solidarity and support because we know very well that only the organized working class can achieve its objectives, and only the struggle can become free the working class.

We hope that with this struggle the workers in struggle achieve its objectives and can stop the management intentions.
