

Greece, Athens November 8, 2017

TUI Public Services-EUROPE of the WFTU expresses its solidarity with the USB and the workers of Italy who strike on Friday November 10 against the antiworkers' – antipopular policies of the government of Italy.

Colleagues,

This, the path of struggle is the only way that can stop the antiworkers' attack which is being imposed in all European countries and aims at safeguarding the profits of the business groups.

The only way is the continuous struggle for the defense of the workers' rights, those who produce today's huge wealth.

We express our support and solidarity with your struggle.
