TUI Public Services-Europe of the WFTU, denounces the arrest of cadres of USB, in Italy

TUI Public Services - Europe of the WFTU denounces the arrest of cadres of USB, because they defended the popular households.

We also denounce the government of Greece, which brings in court 35 trade unionists of PAME for the struggles and the mobilizations they conducted for Social Security

The governments in Europe apply the same policy. They try to stop the popular anger by using the police forces, arrest and persecutions.

The TUI Public Services - Europe of the WFTU expresses its solidarity with USB and PAME, demands the immediate release of all the persecuted cadres and calls upon all the trade union organizations of public sector in Europe to express their solidarity.
