Solidarity With the Working Class of Greece

All militant support to general strike called by PAME on December 8

Nazionale, 07/12/2016

We salute the resistance of the Greek working class that, on December 8, will go on general strike called by PAME against the anti-popular policies imposed by Syriza and by EU .

While the ITUC tries to hide the responsibility of Syriza Government and the criminal nature of EU, we want to reaffirm our internationalist and militant support to the Greek workers and to the PAME, a fraternal organization of WFTU, that are conducting a clear and harsh struggle to defend the real interest and needs of the working class.
