## USB expresses solidarity and support to the EMEF workers (Transport- Portugal)

Roma, 26/10/2016

Solidarity and support to the EMEF workers (Transport- Portugal)

The USB salutes and supports the workers of EMEF fighting for the defense of jobs, against redundancies and against the introduction of further exploitation and precariousness.

EU governments, with different accents, are cutting and privatizing public services, including transport, attacking the working conditions and the right to mobility of the working classes.

We strongly support the strike called by FECTRANS

To defend the rights of workers

To defend the public transports

Your struggle is our struggle !!
