

## **Continue the fight for the reinstatement of Giuseppe Larobina at the gates of the Kuehne Nagel in Torino**

*Larobina give the USB Solidarity during the 1Th of may 2012 to the Ellenika Halivourgia workers in Athens*

**With the repression the Fiat group tries to "normalize " even subordinate factories.**

**And this is the meaning of notice of dismiss received by Giuseppe Larobina, historical framework of the USB worker, national leader of the union and trade union delegate to IVECO in Torino.**

**Larobina was one of the few representatives of the workers who, in the Fiat group, still opposed the owner's arrogance, animator of many struggles and thousand battles, and to Torino in Italy, is one of those who has never stooped in front of owners. Comrade Larobina reacted to this act of repression with the courage and spirit of always fighting openly against employers who resort to flimsy pretexts to eliminate those who dissent from the doctrine of neo-capitalism.**

**Strikes, demonstrations, roadblocks in front of the factory have been the response of the USB Piemonte federation and Larobina.**

**We will not leave no stone unturned to bring again Larobina in company, among his companions and to continue the fight against the excessive power of the Fiat so that Giuseppe could very well carry on.**

**All USB supports Larobina, because his struggle is our struggle !!**

**Confederazione USB**
