

**CENTRAL DOS TRABALHADORES E TRABALHADORAS DO BRASIL**  
**SECRETARIA NACIONAL DE RELAÇÕES INTERNACIONAIS**

São Paulo, Brazil – 3 October, 2017

Dear colleagues USB comrades,

The CTB, the class-oriented trade union central of Brazil expresses its complete solidarity with the Italian working class and specifically to the militant trade union central USB for the national day of strike on 10 November 2017 in order to fight against the privatization of the public sector and the economic and social policies of the Italian Government and of the European Union.

The CTB expresses its solidarity and fully supports their rightful demands: The right to a fair salary income, retirement, real renewal of contracts, relaunching of good employment measures, the cancellation of the law 107 in the school system along with the elimination of precariousness and all forms of exploitation.

The working class worldwide is the biggest victim of the capitalist crisis, and only through international unity, shall we conquer our rights and defeat the imperialist.

Fraternal greetings,

Adilson Araújo

CTB National President
