Alongside Greek workers and the PAME against repression and attack on the right to strike

Nazionale, 04/12/2017

USB, Italian class oriented trade union express solidarity and support to Greek working class and PAME to the general strike on December 14th against repression and government attack to right of strike.

In this time all over Europe's country has grown the repression with police aggressions against strikers, and popular demonstration.

In Italy like in France and in Greece the Government brutally attack who fight for their right. The doctrine law and order is growing in all European country.

We wish a great success for your strike and we fight with you every day for beat repression and capitalistic European politics who arm the

repression.
