Nazionale, 05/02/2015

On behalf of thousands of teachers of Lugansk region and the whole Donbass we sincerely thank you for the support and understanding.

The position that is officially expressed by the World Federation of Teachers` Union inspires and gives thousands of teachers of Donbass the confidence at the peaceful solution of the military conflict that is on our territory.

The support of our European colleagues is very important for all of us! Now our teachers` unions know that The World Federation of Teachers` Union is their like-minded partner and supporter.

With all responsibility we declare that your organization led by its clear and strong statements will tell not only the TRUTH about the policy of double standards pursued by the US, NATO and the EU, but will save thousands of teachers!

Your position gives us confidence in the victory of the working people over the interests of big capital, a victory in defense of the most basic human right - the right to live!
