Usb greets the online initiative of the FSM on the occasion of 8 March.

USB strikes and demonstrates throughout Italy against the exploitation of women's labor:  
In Bologna the social workers (educators, social workers, OSS, social assistants);  
in Pontedera, the historical precarious workers of Piaggio, protagonists last year of a protest on the roof of the blue building that went on for 30 days;  
in Rome, in front of the Ministry of Education, the contract cleaning workers in schools;  
in Naples the domestic workers.
