SEGDAMELIN PEO Cyprus expresses its solidarity with the port workers in Genova

Nazionale, 26/10/2021

SEGDAMELIN PEO Cyprus expresses its solidarity with the 48 hour strike of port workers in Genoa against the efforts of employers and the government to impose under the pretext of the pandemic anti labor measures and to shift the responsibility for health protection measures on the shoulder of the port workers.

We fully support the demands of the workers and the USB for the implementation of the law that imposes the measures for the protection of the health and against the coronavirus to be implemented at the responsibility and the cost of the employer and the state.

We stand on your side and wishes every success in your struggle.

With solidarity
