Solidarity message of the Trade Union Front of the Canary Islands

Nazionale, 19/03/2018

Dear comrades of the Unione Sindicale di Base.

From the Trade Union Front of the Canary Islands we want to transfer all our solidarity to the colleagues of this brother union in the fierce struggle against the neoliberal policies of the Italian government.

At the same time, we want to denounce that the murder of trade unionists will not stop the advance of class unionism or the fight against savage capitalism.

Receive a revolutionary greeting.
