THE USB WELCOMES MANY EX CGIL and FIOM CGIL LEADERS

, 14/06/2016

In a crowded meeting a large number of national and local CGIL and FIOM GCIL leaders announced their exit from their unions and their input in USB.

Among them all the FIAT management team of factories in Melfi and Termoli. With their thousands of members who declared impossible to continue their militancy in a trade union collaborationist and subordinated to the EU and ETUC dictates.

Stated goal: to contribute to the growth of the class oriented, militant and combative trade union in Italy.
