TUI Public Services - Europe of the WFTU, with the USB trade union for their mobilizations to defend the right to strike.

Nazionale, 11/04/2019

The TUI Public Services - Europe of the WFTU, expresses its support and solidarity with the USB for the planning of mobilizations on April 11-13 and of the strikes on May 10 for the public sector and on May 17 for the transport sector to defend the right to strike.

The policies and the measures applied by the different governments in the countries of Europe are the same. The anti-labor attack that targets to abolish not only the right to strike, but also the labor and trade union rights and freedoms in general, began some time ago in Greece and continues today in Italy.

THIS STRUGGLE IS A COMMON STRUGGLE

The TUI Public Services - Europe of the WFTU, calls upon all the trade union organizations of public sector in Europe to express their support and solidarity.

Babis Vortelinos

TUI PS Vice president

Coordinator of Europe
