USB express full solidarity with the two unionists arrested last Sunday in Ioánnina, Greece.

USB hardly condemn the repressive choices of Syriza-anel government.

The two unionist are workers of Commerce Sector, they are fighting and demonstrating for months on their right work and their wages,

Their trade union is affiliated to Pame.

In Greece like in Italy the actual Governments are Governments of Banks, precarity and cosh.

The laws are against rights workers and the repression against conflictual trade union is very hard.

We are with you,

We don't accept this repression against conflictual class oriented trade union.
